EDITORS, *WLA FOLIOS*

At *War, Literature & the Arts*, we celebrate work that expands and challenges our perception of peace, conflict, being, and presence, well beyond traditional and expected notions of war and repose.

For the 2018 edition of *WLA Folios*, a curated and themed issue of *War, Literature & the Arts*, we chose the subject of Body. Thirteen distinguished contributors were asked to consider the body, and we're thrilled to share the compelling and beautiful work featured here.

We hope you enjoy *WLA Folios: Body*.
